

Written Agreement for Commercial Support and Exhibitors

Mississippi State Medical Association is committed to presenting CME activities that promote improvements or quality in healthcare and are independent of the control of commercial interest. As part of this commitment, MSMA has outlined in this written agreement the terms, condition and purpose of commercial support for its CME activities. The ACCME defines a “commercial interest” as any entity producing, marketing, and re-selling or distributing health care goods or services, consumed by, or used on, patients. The ACCME does not consider providers of clinical service directly to patients to be commercial interests.
